

# UC San Diego | Kyoto University KSAC Joint Research Symposium

October 10-11, 2023  
Robert Conn Executive Outreach Center  
Franklin Antonio Hall, UC San Diego

*With support from Keihanshin Startup Academia Coalition (KSAC), we are pleased to announce the UC San Diego | Kyoto University - KSAC Joint Research Symposium scheduled for October 10th to October 11th at UC San Diego.*

## **Purpose:**

The Symposium brings together scientists who investigate and control phenomena that occur at interfaces between living and non-living materials. The goal of the Symposium is to identify areas for joint research efforts between UC San Diego, Kyoto University, Keihanshin Startup Academia Coalition, and other industry partners, and to explore opportunities for exchange of young scientists/PhD candidates.

## **Content:**

- The general theme of the Symposium is “Biointerfaces Communicating with Biosystems”
- The Symposium will consist of short talks from speakers with topics focusing on Biointerfaces involved in various categories:
  - Polymer
  - Nanomaterials
  - Micro Engineering
  - Electronics
  - Sensors and Imaging
  - Chemical Biology
- Featuring a total of 22 speakers consisting of faculty from both UC San Diego and Kyoto University.

**Expected Audience (In-Person):** 70

**Expected Audience (Virtual):** 15

Kyoto University Guests | IMDD Faculty | Kyoto University and UC San Diego Industry Partners | KSAC Members | IMDD Sponsors & Board Members
